**PRESS RELEASE**

**Helianthus maximilliani 'September Sun'**

Intrinsic Perennial Gardens, Inc. is excited to announce the introduction of a new Helianthus,  
**Helianthus maximilliani 'September Sun'**.

This form of Maximilian's Sunflower was selected for its somewhat shorter stature of 5-6' tall stems along with slightly earlier bloom time it reliably blooms in September before the end of the season and in conjunction with most Aster and Big Bluestems and other tall fall grasses like Panicum and Miscanthus.

Plug liners are available from Intrinsic Perennial Gardens.
