PRESS RELEASE

Salvia nemerosa 'Ave Maria' PPAF

April 2013

Intrinsic Perennial Gardens, Inc. is excited to announce the introduction of a new meadow sage,
Salvia nemerosa 'Ave Maria' PPAF.

The new Salvia has purple stems and deep pink flowers followed by purple seed heads.

In May, the plants bloom with pink spikes on purple stems and in late summer early fall plants can rebloom.

These clumping plants reach around 18"-24" tall and wide. It prefers a well drained soil in full sun. The hardiness is zone 3-9 and can be planted in spring summer or fall. This new Salvia combines nicely with other Salvias like 'Caradonna' and short ornamental grasses. Plants are available from Intrinsic Perennial Gardens,

For more information on the plant and licensing Contact Brent Horvath at 800-648-2788 ext. 15 or
