About *Scirpus* 'Stars and Stripes'

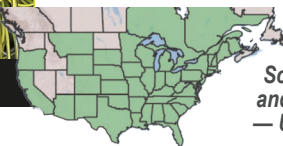

THE COVERAGE knits together

Scirpus pendulus 'Stars and Stripes' PPAF comes across as a yellow-green carex, but it is one of the graceful plants of the wet prairie, well adapted for both seasons of flooding and drought. It thrives in full sun, and light shade is not a problem.

The pendulus species of bullrush is best identified by drooping seedheads held on 18-inch plus yellow stems. The ornamental value of 'Stars and Stripes' lies in vibrant wide variegation running through the center of the leaf blade.

For commercial applications, consider water catchments required in modern developments. 'Stars and Stripes' knits into a low solid bed that requires no mowing. Foot traffic for maintenance is no problem, and the vibrant stripes add a snap to the design aesthetic of other industrial features of the property.

The benefits work for residential homes where soggy soil, running water, rainspouts or significant runoff seasonally returns. Its attractive no-mow capability holds the soil in places too steep or uncomfortable for mowing.

Scirpus is native to most states and provinces in North America. — USDA Natural Resources map

News & New Plants

PYCNANTHEMUM 'SMOKEY MOUNTAIN'

Coming off the year of *Rudbeckia 'American Gold Rush'* as PPA Plant of the Year is hard to beat, and momentum is building for a few of our newest plants. It keeps things exciting.

Besides our new plants in 2024 we will launch a dedicated website, intrinsicintroductions.com, with information and pictures that we can't include in a print catalog. This will include links to all our suppliers.

Geranium maculatum 'Huggy Bear' gained attention from a few new producers and graced the cover of the New Plant Pamphlet at Cultivate, with well over 10,000 copies given out and more mailed. *Monarda bradburiana 'Midnight Oil'* is another cover plant, appearing on the front of the Creek Hill Nursery catalog.

New in 2023, both of our little bluestems, 'Little Red Fox' and 'Sandhill', have interest from a wide range of the industry, too. We continue to sell almost as much as we can produce on *Andropogon gerardii 'Blackhawks'*, *Allium x 'Windy City'*, and *Bouteloua gracilis 'Honeycomb'*.

Bouteloua curtipendula 'Sunset Prairie', like our *Schizachyrium scoparium 'Little Red Fox'*, has a lot of different colors. Low mounding foliage of blue-green leaves has the typical thin stems to 30 inches plus. Their fall color is an exceptional blend of red and purple.

Panicum virgatum 'Dust in the Wind' PPAF has highlights of chalky purple from spring to fall, with orange as fall begins.

Phlox x 'Mr. Blue Sky' is a cross between two great spring blooming phlox, both with blue flowers, that results in lavender-blue. Fragrant plants top out around 15 inches with early bloom just like the parents.

Pycnanthemum x 'Smokey Mountain Mint' PPAF is probably the most exciting new plant, due to its wide appeal. Silvered growth tips layer on top of a grayed-purple foliage on robust hybrid plants of 24–30 inches in height.

Sesleria x 'Tiny Dancer' could pass as a turf grass but the strongly clumped plants bloom in spring on short stems of just 12–15 inches.

Vernonia x 'Over My Head' may not fit every garden at 8–10 feet tall but it works well with tall grasses. Open panicles of one-inch purple clusters make a statement from a distance.

Newly available supply includes many bareroot/divisions, especially grasses, from Todd Baker at **Baker's Nursery** in Canada.

Quality Cuttings also added three more URCs: *Aster x 'Thunderdome'* PPAF, *Rudbeckia 'Green Eyed Lady'* and *Sedum x 'Peace and Joy'*.

If you haven't see our grasses at their peak in September, be sure to attend our **Ornamental Grass Day** on Friday September 13, 2024.

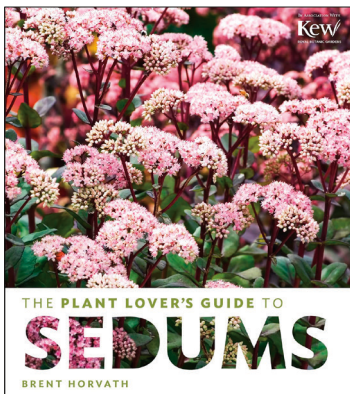

SESLERIA 'TINY DANCER'

2024 Full Line of Breeding grasses and grass-like in green shade

Formal Names

Winner
Garden Writers
Association Gold Award

Timber Press selected Brent Horvath to write the Sedums book in their popular series, "The Plant Lover's Guide."

The most popular flowering succulents, sedums range from groundcovers to large border perennials. They find themselves in green roof and vertical garden design because of their visual interest and drought tolerance.

Drawing from experience, Horvath profiles 150 of the best varieties with information on zones, plant size, soil and light needs, origin, and landscape use.

Sedums change dramatically with the seasons. In fall they are rich and earthy while in summer they flower in vibrant shades of pink and yellow.

Additional information includes designing, growing, propagating, sources, and public garden displays.

Published in 2014, the 232 page book is available on Amazon and at timberpress.com

Bred by Brent Horvath

Hebron, Illinois

Our plants are bred and selected in the tough conditions of the Midwest with hot humid summers and cold wet winters. Our goals are simple—improved, durable, ornamental garden plants for our own climate and the rest of the world!

Intrinsic Introductions was born from a business my father built after he immigrated from Hungary in 1956. He chose the name "Intrinsic" because he felt garden plants should have intrinsic value to the garden. Today, I breed the plants he would have grown for his perennial nursery.

Allium
'Big Beauty'
PP#34,306
\$0.20 royalty
2021 introduction
Ornamental Onion

Allium 'Big Beauty' has wide, strappy, spade-like leaves. Large globes open over the thick foliage in progression for about two months, one of the longest displays among alliums.

Extra wide gray-green foliage stands out early in the season on this robustly growing *allium*. In July silvered pink buds open to soft pink, two and a half-inch flower balls. Similar in color to 'Summer Beauty' this plant grows a bit taller to around 24 inches. Full sun, most any soil but wet.

■ Available from Baker's Nursery, Blooming Nursery, Intrinsic Perennial Gardens, Midwest Groundcovers, Pioneer Gardens, Twixwood

Allium
'Chivette'
PP#30,151
exclusive license
2017 introduction
Ornamental Onion

A mostly sterile chive with edible kelly green foliage all season long. Initially upright but then more relaxed, blades reach 12 to 15 or more inches long. This vigorous plant is easy to grow. Lavender purple flowers with a purple stripe down the middle of the petal are also edible, and are held on 12-inch or longer stems. Beginning as round buds the flowers open to one inch wide. Full sun is preferred. Average to dry soil.

■ Available from Emerald Coast Growers, Intrinsic Perennial Gardens, Pioneer Gardens

2020 introduction
Baseball™ Bluestar

Intermediate, halfway-type foliage emerges dark green. These hybrid plants are heavy blooming. The blue flower clusters are darker than most bluestars and larger, too. They begin to open at the end of May on 18 to 24-inch stems. A reserved growth spurt to 30 inches plus occurs after the flowers fade, keeping the plant wider than it is tall. Full sun; average soil.

■ Available from Blooming Nursery, Intrinsic Perennial Gardens

Amsonia
'Fontana'
tabernaemontana

'Red October'
PP#26,283
gerardii
\$0.25 royalty
2013 introduction
Big Bluestem
Award Winner

Our second vegetative form of big bluestem is hard to beat for its fall color. Initially selected for its finer foliage, it has a nice upright habit to six feet. Leaves emerge deep green and typically have some red tips starting in spring. In August the red highlights increase and deepen to a rich burgundy red. After the first frost, usually in October, the foliage turns a more scarlet red, taking on a striking appearance. Red flowers begin in August. Full sun is best for the red foliage color. Well-drained soil. John Greenlee called this "the New Rubrum."

■ Available from All Plant, Art Form, Baker's Nursery, Briggs Nursery, Emerald Coast Growers, GET Group, Hoffman Nursery, Intrinsic Perennial Gardens, Janus Gardens, JAO Nursery, Microplant, North Creek Nurseries, Norview Gardens, International, Walla Walla Nursery

pennsylvanica
\$0.15 royalty
2016 introduction
Pennsylvania Sedge,
Common Oak Sedge

This rhizomatous and vegetative form of Penn sedge has a vigorous habit. It also has more substantial flower clusters than the species with reliable heavy spring bloom in April-May. It makes a good groundcover for dry shade. I have it planted with *Polemonium* x 'Heaven Scent'. Tolerates full sun with irrigation but part shade is best. The bright green foliage reaches only five to six inches.

■ Available from AG3, Briggs Nursery, Emerald Coast Growers, Intrinsic Perennial Gardens, Meridian Young Plants, Samson Botanicals, Twixwood

Delosperma
'Mountain Dew'
PP#31,543
exclusive license
2019 introduction
Ice Plant

This is a clear yellow sport of 'Orange Crush'. Nearly ground-hugging, succulent fingered foliage requires sharp drainage especially in winter. Zones 5 to 9. Peak bloom of the yellow and white centered one-inch flowers begins in April-May and continues into June. Full sun is best.

■ Available from Darwin Perennials, Intrinsic Perennial Gardens, Swift Greenhouses

Delosperma
'Orange Crush'
PP#30,806
exclusive license
2018 introduction
Ice Plant

This orange sport of 'Fire Spinner' has a softness about it and slightly pink bases to the petals. Low growing and spreading plants have fingered succulent foliage nearly covered with flowers from April-May into June. They prefer well-drained to dry soil and full sun is best.

■ Available from Darwin Perennials, Intrinsic Perennial Gardens, Swift Greenhouses

ASTER 'ARRESTED DEVELOPMENT'
extra short plants

ASTER 'CHICAGO'
large lavender-blue flowers

ASTER 'THUNDERDOME'
deep color on large plants

BOUTELOUA 'HONEYCOMB'

soft orange with pink bases

Eupatorium 'Blind Date': Foliage that turns bronze in full sun is another significant feature of this *eupatorium*.

Dianthus
'Fuchsia Fire'
PP#32,987
\$0.15 royalty
2020 introduction
Pinks

This hybrid with 'Firewitch' has nearly the same color but the stems are half the size. Reaching five to six inches tall, the fragrant flowers begin in June with some re-bloom sporadically throughout the season. Flowers rise above a silver-blue mat of extra clean needle-like foliage. Bred by Jake Letmanski. A portion of the royalty will go to Jake to help pay for his college tuition. Full sun; well drained soil.

■ Available from Intrinsic Perennial Gardens, Meridian Young Plants, Twixwood

Echinacea
'Showoff'
purpurea
no royalty
2010 introduction
Purple Coneflower

Selected for the extra wide, long drooping pink petals and extra showy orange cones, this seed strain stands out at a distance, especially when compared to the new upright petaled forms. Full sun and well-drained soil. Long blooming.

■ Available from Intrinsic Perennial Gardens

Echinacea
'White Showoff'
purpurea
no royalty
2016 introduction
White Coneflower

After years of observing the pink form and pulling out the best whites, we are able to offer a white strain of 'Showoff'. Bright honey-colored cones are surrounded by hanging white petals on vigorous three-foot plus plants. Great for a naturalistic planting. Full sun; well drained soil. Long blooming.

■ Available from Intrinsic Perennial Gardens

Eryngium
'Prairie Moon'
yuccifolium
no royalty
2013 introduction
Rattlesnake Master

This uniformly short seed strain was selected for its shorter statured three-foot plus stems compared to the species which grows to five feet and tends to flop. The foliage is also thinner and bluer. White flowers begin in June or July. In fall the seedheads turn brown and hold on into winter. Plant in full sun, dry to well-drained soil.

■ Available from Intrinsic Perennial Gardens

Eupatorium
'Blind Date'
PP#35,173
perfoliatum
\$0.15 royalty
2022 introduction
Boneset

This native wetland species tolerates average soil. Chocolate-red foliage is topped with milky white flowers on three-foot stems in July. Full sun; moist to average soil. Combines easily with other varieties.

■ Available from Intrinsic Perennial Gardens, Twixwood

Eupatorium
'Polished Brass'
no royalty
2020 introduction
Boneset

The hybrid vigor is hard to miss on these robust plants. In spring the foliage emerges chocolate-red, a trait that comes from the seed parent, *Eupatorium perfoliatum* 'Milk and Cookies'. The differences are glossy leaves and the whole plant is larger, growing four feet plus on sturdy stems. If you want pollinators and butterflies, this is your plant! From August into September the plant is a magnet. It would be nice with *vernonia* selections. Plant and enjoy. Full sun; any soil.

■ Available from Blooming Nursery, Intrinsic Perennial Gardens, Twixwood

Rudbeckia
'American Gold Rush'
 PP#28,498, CAPBR#6643,
 EUPBR#49,424
 \$0.25 royalty
 2016 introduction
 Black-Eyed Susan
 Award Winner

Rudbeckia 'American Gold Rush' does not have problems with the *septoria* blight that affects certain regions. The fine thin hairs on its leaves keep the spores from settling on the tissues of the leaf. If you liked the stands of black-eyed Susan you had with 'Goldsturm', come back to 'American Gold Rush'.

Perennial Plant Association Plant of the Year for 2023! One of my best plants! Naturally compact plants reach 22 inches tall and 40 inches wide at the most, with a rounded habit and heavy bloom starting in late July through September. The golden yellow three-inch flowers have arched petals. Foliage is thinner and hairy giving this plant excellent resistance to *septoria*, the fungus that affects 'Goldsturm'. Full sun; well drained soil.

- Available from AG3, All Plant BV, Art Form, Bailey Nurseries, Battlefield Farms, Blooming Nursery, Creek Hill Nursery, Danziger, Emerald Coast Growers, Express Seed, Gardenworld, GET Group, Green Leaf Plants, Green Trade Horticulture, Hortech, Intrinsic Perennial Gardens, Meridian Young Plants, Microplant, Midwest Groundcovers, New Moon Nursery, North Creek Nurseries, Opel Growers, Pioneer Gardens, Quality Cuttings, Stonehouse Nursery, Swift Greenhouses, Twixwood, Vitro Westland, Walters Gardens

great in pots or in the ground

SALVIA 'SIXTEEN CANDLES'
upright with a blend of colors

SANGUISORBA 'PLUM DROPS'
makes a nice cut flower, too!

Schizachyrium 'Sandhill' has extra-wide, powder blue foliage.

Schizachyrium
'Jazz'
scoparium
no royalty
2010 introduction
Little Bluestem

An exciting selection that comes from 'The Blues'. 'Jazz' is a shorter form growing two feet plus with the same blue foliage. It will not fall over, and makes a good replacement for blue oat grass with some purple fall color to the stems, too. Native. Full sun with well-drained soil is best.

■ Available from AG3, Blooming Nursery, Intrinsic Perennial Gardens, New Moon Nursery, Twixwood

2023 introduction
Little Bluestem

Bushy, vigorous plants on the shorter side of little bluestem grow 24 to 30 inches tall. Spring color is gray and green, quickly deepening and turning to the red side in mid-to-late summer. Strongly basal foliage with thin wiry stems changes from green to silver to red by fall. An exciting addition to the short end of grasses. Full sun; most any soil but wet.

■ Available from Baker's Nursery, Emerald Coast Growers, Green Leaf Nursery (Aris), Intrinsic Perennial Gardens, Kurt Bluemel, Microplant, New Moon Nursery

2024 introduction
Bullrush

This brightly variegated native bullrush looks very similar to a *carex*. Thin strap-like leaves, usually around three-eighths of an inch or one centimeter wide have bright yellow centers with some streaking, both gold and green, within the strong green edges. Leaf length is one foot plus. In July butter yellow stems emerge 18 to 24 inches tall with star-like clusters at the tips. Prefers moist soil and full sun to part shade. Propagation in winter by division or tissue culture. Best spring-planted.

■ Available from Intrinsic Perennial Gardens, Microplant

Sedum
Autumn Charm™
aka 'Lajos'
no royalty
2006 introduction
Showy Stonecrop

A variegated form of *Sedum* 'Autumn Joy', Autumn Charm™ has creamy yellow edges with green centers. In mid-September white buds turn to pink, then russet red. A four season plant with a form that is very stable. On a personal note, 'Lajos' is our first patented plant, named for my charming dad who emigrated from Hungary.

■ Available from Creek Hill Nursery, GET Group, Hoerr Nursery, Intrinsic Perennial Gardens, Twixwood

Sedum
Autumn Delight™
aka 'Beka' PP#18,398
\$0.25 royalty
2007 introduction
Showy Stonecrop

A reverse sport that came from *Sedum* 'Lajos' (Autumn Charm™), Autumn Delight™ has foliage with a thin, green edge and chartreuse-yellow centers. Flowers just like 'Autumn Joy', the parent. Due to the variegation the height seems to be shorter. So far we've only seen it grow to 18 inches. 'Beka' means frog in Hungarian and was my dad's affectionate name for my mom. The foliage is showiest in May and June.

■ Available from Blooming, Emerald Coast Growers, GET Group, Hinsdale, Intrinsic Perennial Gardens, Midwest Groundcovers, Stonehouse Nursery, Swift Greenhouses, Twixwood

2020 introduction
Stonecrop

After collecting seed on a group of over 100 different *Sedum album*s we selected this as being superior. Ground hugging, vigorous plants are deep green and russet red all year long with some orange-ish highlights. Heavy blooming plants in June are only three to four inches tall with white flowers.

■ Available from Intrinsic Perennial Gardens, Quality Cuttings

Sedum
'Peace and Joy'
PP#30,858
\$0.15 royalty
2017 introduction
Showy Stonecrop

This 'Pure Joy' relative has a similar habit but with bicolor magenta and pink flowers in September. Along with the blooms, gray-green foliage takes on a reddish edge and purple stems, a very nice addition. Grows to one foot tall and 12-15 inches wide. Full sun; well drained soil. Resistant to Rhizoctonia.

■ Available from Green Leaf Nursery, Intrinsic Perennial Gardens, Opel Growers, Quality Cuttings, Vitro Westland

Sedum
'Pillow Talk'
PP#28,528
\$0.20 royalty
2016 introduction
Showy Stonecrop

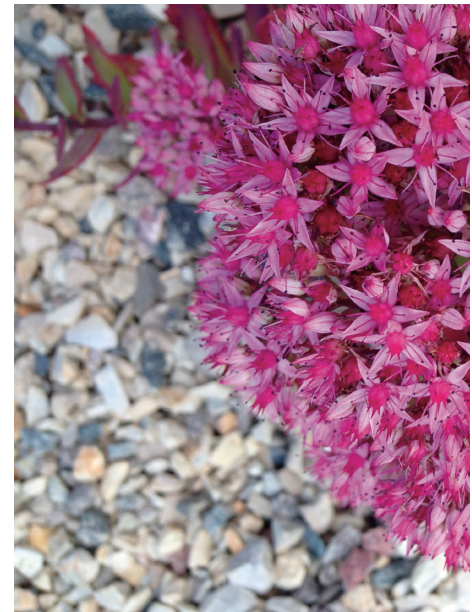

Substantial plants with hybrid vigor reach 18-24 inches tall and wide. Gray-green foliage is also larger, held on rose-colored stems, and at times can have reddish edges. Large five to six-inch flower heads of deep pink and magenta stand out from the crowd. Fall color of chartreuse and pink foliage, too. Resistant to Rhizoctonia. Full sun to light shade; well-drained soil is best.

■ Available from Blooming Nursery, Intrinsic Perennial Gardens, Pioneer Gardens, Quality Cuttings, Twixwood, Vitro Westland

2022 introduction
Goldenrod

A hybrid of a white upland species and a moist-loving gold species yielding vigorous, adaptable plants. Basal clumps of half-inch wide, clean, strap-like foliage make a nice backdrop. In July woody-like stems bolt to 24 inches tall, starting with lime-yellow buds in clusters. Typically white flowers have creamy yellow centers. Works well as a cut flower in bud and in flower, lasting a week or more. Full sun; average to most any soil. Great with *asters* and low grasses.

■ Available from Blooming Nursery, Intrinsic Perennial Gardens, Meridian Young Plants, New Moon Nursery, North Creek Nurseries, Quality Cuttings

a great cut flower

Vernonia
'Over My Head'
no royalty
2024 introduction
Ironweed

Vernonia 'Southern Cross' has a strong vase shape to its habit, held in place with thick stems that keep it tidy.

Our second ironweed, this seedling of *Vernonia altissima* likely has 'Southern Cross' as the other parent. Substantial plants grow eight feet plus tall. Foliage reaches one inch wide by eight to ten inches long, giving the whole plant a semi-tropical feel due to its abundance. Plants bud and bloom from September into October with large clusters of one-inch purple flowers on wide open panicles. Attractive to pollinators. Average soil. Propagation in spring; production in summer.

■ Available from Intrinsic Perennial Gardens

Vernonia
'Southern Cross'
no royalty
2013 introduction
Ironweed

A favorite selection this hybrid came from seed sown as *Vernonia lettermanii*. The other parent is unknown but it had broad foliage and this one has intermediate foliage measuring up to a half-inch wide. The deep green foliage looks good all season long. The plant grows three feet tall and wide, blooming in August. Purple flowers can have thin white filaments along with lacy purple petals that emerge from deep purple buds that look like little jewels.

■ Available from Blooming Nursery, Intrinsic Perennial Gardens, Kurt Bluemel, New Moon Nursery, Twixwood

Veronica
'Kiss The Sky'
PP#31,665
\$0.15 royalty
2016 introduction
Speedwell

This hybrid has traits from two of our previous intros. Slightly gray-green foliage gives it a very clean look throughout the season. Vigorous plants are taller, growing 24 inches plus with exceptionally long sky blue flower spikes beginning in mid-June. In late summer plants re-bloom but with deadheading the bloom can be nearly continuous. Full sun; well drained soil.

■ Available from Blooming Nursery, Intrinsic Perennial Gardens, Meridian Young Plants, Twixwood

Veronica
'Pure Silver'
incana
